

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

QA Automation Engineer with 3+ years of experience in automation, manual, API, and backend testing for web-based applications in Agile environments. Skilled in designing, developing, and maintaining automation test scripts and frameworks using Selenium WebDriver, Playwright, Java, TestNG, and BDD frameworks. Hands-on experience in API testing, backend data validation using SQL, regression testing, CI/CD integration, and quality assurance processes. Experienced in validating application workflows, identifying defects, improving test efficiency, and collaborating with cross-functional teams to ensure high-quality software delivery. Strong understanding of SDLC, STLC, automation frameworks, defect lifecycle management, and continuous quality improvement.

SKILLS

Programming Languages: Java, JavaScript, C

Frameworks & Tools: TestNG, BDD, Cucumber, Maven, Page Object Model (POM), Hybrid Framework

API & Backend Testing: Postman, SOAP UI, REST API Testing, API Validation, SQL Query Writing, MySQL, Backend Data Validation

Testing Types: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, System Testing, UAT

CI/CD & Version Control: Jenkins, Git, GitHub, CI/CD Pipelines

QA Methodologies: Agile Scrum, SDLC, STLC, Defect Lifecycle Management

Core Skills: Automation Framework Development, Problem Solving, Debugging, An. al Thinking, Collaboration, Quality Assurance

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

📅 01/2024 - Present 📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Update bullets to align with the JD:
- Designed, developed, and maintained automation test scripts and frameworks using Java, Selenium WebDriver, TestNG, and Maven for large web application workflows.
- Executed automated and manual tests across UI and backend validation to ensure software quality and high system reliability.
- Performed API testing and backend data validation using SQL to validate system integrations and business logic.
- Integrated automation execution with Jenkins CI/CD pipelines to improve testing efficiency and release quality.
- Collaborated closely with developers and QA teams to troubleshoot defects, validate fixes, and improve automation coverage.
- Improved regression efficiency by automating repetitive workflows and increasing automation test coverage.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed functional testing and manual testing for banking applications including Account Management, Fund Transfer, Loan Processing, and Transaction modules.
- Designed and executed test cases, test scenarios, and test plans based on business requirements and functional specifications.
- Conducted regression, integration, system, and UAT testing to ensure application stability and functionality.
- Executed SQL queries for backend data validation to verify data integrity and business logic.
- Logged, tracked, and managed defects using JIRA, ensuring timely bug resolution and retesting.
- Participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, reviews, and retrospectives.
- Collaborated with developers and business stakeholders to clarify requirements and resolve issues efficiently..

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Developed and maintained Playwright automation scripts using reusable components for critical regression scenarios.
- Executed manual, API, and automation testing for web applications to validate functionality and software reliability.
- Conducted REST API testing using Postman and backend validation using SQL queries to ensure data integrity and accurate system behavior.
- Participated in Agile Scrum ceremonies and collaborated with cross-functional teams to improve quality and delivery timelines.
- Prepared test execution reports, defect metrics, and QA documentation to support release readiness.
- Basic understanding of AI-assisted QA tools and automation concepts

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
