

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

Automation Test Engineer / QA Automation Engineer with 3+ years of experience in manual, API, and automation testing for web-based applications in Agile/Scrum environments. Skilled in designing, developing, and maintaining automated test scripts using Selenium WebDriver, Playwright, Java, and TestNG to ensure software quality and reliability. Strong expertise in functional, regression, smoke, sanity, exploratory, and integration testing, along with test case design, defect tracking, and quality assurance processes. Hands-on experience in CI/CD integration using Jenkins, REST API testing using Postman, SQL database validation, and cross-functional collaboration. Strong understanding of software QA methodologies, SDLC, STLC, defect lifecycle management, and Agile practices, with excellent analytical and troubleshooting skills.

SKILLS

Automation Testing: Selenium WebDriver, Playwright, Test Automation, UI Automation, Cross-Browser Testing

Programming Languages: Java, JavaScript, C

Frameworks & Tools: TestNG, BDD, Cucumber, Maven, Page Object Model (POM), Hybrid Framework

API & Database Testing: Postman, SOAP UI, REST API Testing, SQL Query Writing, MySQL, Database Validation

Testing Types: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Exploratory Testing, Integration Testing, System Testing, UAT

Defect Management & Documentation: JIRA, Defect Tracking, Bug Reporting, Test Case Design, Test Planning, Test Documentation, Quality Assurance

Methodologies: Agile Scrum, SDLC, STLC, QA Methodologies, Black Box Testing

CI/CD & Version Control: Jenkins, Git, GitHub

Core Skills: Troubleshooting, Debugging, Problem Solving, Communication, Collaboration, Attention to Detail

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

📅 01/2024 - Present

📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and maintained automated test scripts using Selenium WebDriver, Java, and TestNG for critical business workflows.
- Analyzed requirements, design documents, and system functionality to create effective test scenarios and improve coverage.
- Executed functional, regression, smoke, sanity, and exploratory testing to ensure software quality and release readiness.
- Identified, tracked, and validated defects using JIRA, collaborating with developers for timely issue resolution.
- Integrated automated testing with Jenkins CI/CD pipelines to support continuous quality validation.
- Performed cross-browser testing to ensure application stability and user experience.
- Improved overall testing efficiency by automating repetitive workflows and increasing regression coverage.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed functional testing and manual testing for banking applications including Account Management, Fund Transfer, Loan Processing, and Transaction modules.
- Designed and executed test cases, test scenarios, and test plans based on business requirements and functional specifications.
- Conducted regression, integration, system, and UAT testing to ensure application stability and functionality.
- Executed SQL queries for backend data validation to verify data integrity and business logic.
- Logged, tracked, and managed defects using JIRA, ensuring timely bug resolution and retesting.
- Participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, reviews, and retrospectives.
- Collaborated with developers and business stakeholders to clarify requirements and resolve issues efficiently..

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Executed 5000+ manual and automation-assisted test cases, identifying defects and improving release quality.
- Designed and maintained test plans, test methods, and reusable test cases based on business requirements.
- Performed Playwright automation testing for key user workflows to improve regression efficiency.
- Conducted API testing using Postman and backend validation using SQL queries.
- Participated in Agile/Scrum ceremonies and collaborated with developers and product stakeholders to resolve issues.
- Prepared test reports, defect metrics, and QA documentation to support release readiness.
- Basic understanding of Python scripting for automation

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
