

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

QA Automation Engineer with 3+ years of experience in Automation Testing, Manual Testing, API Testing, and Regression Testing for web and API-based applications. Strong expertise in Selenium WebDriver, TestNG, Playwright, CI/CD pipelines, automation framework development, and REST API validation. Hands-on experience designing, developing, and maintaining automated test scripts, reusable frameworks, regression suites, and quality assurance processes. Skilled in Java, JavaScript, Jenkins, Git, Jira, and test automation best practices with strong collaboration skills in Agile environments.

SKILLS

QA Testing Skills:

Automation Testing: Selenium WebDriver, Playwright, TestNG, Cucumber BDD, Page Object Model (POM), Hybrid Framework, Automation Framework Development, Web Automation Testing

Programming Languages : Java, JavaScript (Basic), Python (Basic Exposure), C

API Testing: Postman, REST API Testing, SOAP UI, JSON/XML Validation, API Request/Response Validation

Testing Types: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, System Testing, End-to-End Testing, Exploratory Testing, UI Testing, Cross-Browser Testing

CI/CD & DevOps: Jenkins, CI/CD Pipeline Integration, Git, GitHub, Maven

QA & Test Management: Test Case Design, Test Planning, Test Execution, Bug Reporting, Defect Lifecycle Management, QA Documentation, Agile/Scrum

Database Testing: SQL, MySQL, Backend Data Validation

Cloud & Performance: Cloud Testing Concepts, Azure Fundamentals, Performance Testing Awareness

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

📅 01/2024 - Present 📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven

Project Description & Responsibilities:

- QA Automation Engineer | Jan 2024 – Present
- Technologies: Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, POM
- Developed and maintained automation test scripts using Selenium WebDriver and TestNG for Login, Product Search, Cart, Checkout, and Payment modules.
- Designed an automation framework using Java, TestNG, and Page Object Model (POM) architecture.
- Executed regression, smoke, and sanity test suites through Jenkins CI/CD pipelines.
- Performed cross-browser testing to ensure consistent application behavior across browsers.
- Generated automation execution reports and collaborated with development teams to resolve defects.
- Improved testing efficiency by automating repetitive test scenarios and increasing regression coverage.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed manual and functional testing for banking applications involving account management, fund transfer, loan processing, and transaction workflows.
- Created detailed test scenarios, test cases, and test data aligned with business and functional requirements.
- Conducted backend data validation using SQL queries to ensure consistency and data accuracy across modules.
- Performed Regression Testing, Integration Testing, System Testing, and UAT for release validation.
- Logged and managed defects in Jira, collaborating with teams for resolution and retesting.
- Participated in Agile sprint ceremonies and collaborated with stakeholders to ensure quality deliverables.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Designed, developed, and maintained automated test scripts and reusable automation frameworks for web-based applications.
- Performed UI automation testing using Selenium WebDriver and Playwright, automating regression and functional test scenarios.
- Developed and executed functional, regression, smoke, sanity, and integration test cases to ensure software quality and stability.
- Executed REST API Testing using Postman, validating request/response payloads, status codes, headers, and JSON/XML responses.
- Integrated automated test execution into CI/CD pipelines using Jenkins for continuous validation during deployments.
- Created and maintained test cases, automation scripts, test documentation, execution reports, and defect tracking records.
- Conducted cross-browser testing across Chrome, Firefox, and Edge to validate compatibility and functionality.
- Collaborated with developers and product teams to identify, reproduce, and resolve defects efficiently.
- Participated in Agile ceremonies including sprint planning, stand-ups, reviews, retrospectives, and defect triage.
- Contributed to improving automation efficiency and regression coverage through reusable test components and framework enhancements.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (AZ-104)
