

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

QA Engineer with 3+ years of experience in manual testing, automation testing, API testing, and regression testing for web-based enterprise applications in Agile/Scrum environments. Strong expertise in requirement analysis, test case design, defect tracking, Playwright automation, REST API testing, and SQL validation. Hands-on experience in independently designing, executing, and maintaining test scenarios, regression suites, and quality documentation to ensure seamless user experience and high-quality software releases. Skilled in cross-functional collaboration, exploratory testing, CI/CD practices, and continuous quality improvements.

SKILLS

QA & Manual Testing : Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Exploratory Testing, Performance Testing (Basic Awareness), Integration Testing, End-to-End Testing, Requirement Analysis, User Story Validation, Acceptance Criteria Validation, Test Case Design, Test Scenario Design, Test Documentation, STLC, SDLC

Automation Testing : Playwright, Selenium WebDriver, UI Automation Testing, TestNG, BDD, Gherkin, Page Object Model (POM), Hybrid Framework, CI/CD Testing

API & Backend Testing : Postman, REST API Testing, SOAP UI, JSON/XML Validation, SQL, MySQL, MongoDB (Basic Understanding), Backend Data Validation

Tools & Collaboration : JIRA, Git, GitHub, Azure devops , Scrum, Jenkins

Programming: Java, JavaScript, Basic Scripting, C

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

📅 01/2024 - Present

📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and maintained automation test scripts using Selenium WebDriver with Java and TestNG for critical e-commerce modules including Login, Product Search, Cart, Checkout, and Payments.
- Designed and implemented a scalable automation framework using Selenium, Java, TestNG, and Page Object Model (POM) to improve automation maintainability.
- Created, executed, and maintained automation test suites for functional, regression, smoke, and sanity testing to ensure release quality.
- Integrated automation test execution with Jenkins CI/CD pipelines for continuous quality validation.
- Collaborated with developers, business analysts, and QA teams to analyze requirements, validate fixes, and improve product quality.
- Identified, logged, and tracked defects using JIRA, ensuring timely defect resolution and retesting.
- Improved automation coverage and reduced manual effort by automating repetitive business-critical workflows.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023

📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed manual and end-to-end testing for banking workflows based on business requirements and user stories.
- Created and maintained test scenarios, test cases, test plans, and QA documentation aligned with acceptance criteria.
- Conducted functional, integration, system, regression, and UAT testing to ensure release quality.
- Validated backend data using SQL queries and collaborated with developers to troubleshoot issues.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Independently reviewed requirements, user stories, and acceptance criteria to ensure they were testable, complete, and aligned with business expectations. Kella Lakshmi .pdf
- Designed, executed, and maintained test scenarios, test cases, and regression suites for enterprise web applications.
- Performed manual testing, functional testing, regression testing, smoke testing, sanity testing, and exploratory testing to ensure product quality.
- Developed and maintained UI automation scripts using Playwright with JavaScript to improve regression efficiency and release stability.
- Conducted REST API testing using Postman, validating request/response payloads, parameters, headers, and status codes.
- Proactively identified, logged, tracked, and retested defects using JIRA, collaborating closely with developers until issue resolution.
- Participated actively in sprint planning, requirement reviews, stand-ups, and retrospectives, contributing testing insights and quality recommendations.
- Maintained test documentation, defect reports, execution reports, and quality dashboards to communicate testing progress and release readiness.
- Contributed to continuous quality improvements, enhancing regression coverage and reusable testing practices.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (AZ-104)
