

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

QA Automation Engineer with 3+ years of experience in manual testing, automation testing, regression testing, API testing, and integration testing within Agile/Scrum environments. Strong expertise in test strategy, test planning, Selenium WebDriver, TestNG, CI/CD pipelines, and automation framework maintenance for enterprise web applications. Hands-on experience in functional, regression, integration, and backend testing, defect management, test execution, and quality assurance processes. Skilled in collaborating with developers, product owners, and cross-functional teams to improve testing efficiency, product quality, and release reliability. Familiar with Python automation concepts, performance testing awareness, and test process improvements.

SKILLS

Software Testing : Functional Testing, Regression Testing, Integration Testing, System Testing, Performance Testing (Awareness), End-to-End Testing, Smoke Testing, Sanity Testing, User Acceptance Testing (UAT), Test Planning, Test Strategy, Test Case Design, Test Execution, Quality Assurance

Automation Testing : Selenium WebDriver, TestNG, Playwright, UI Automation Testing, Automation Framework Development, Regression Automation, Appium (Basic Understanding), Python Automation (Exposure)

Programming Languages : Java, Python (Basic/Exposure), JavaScript, C

API & Backend Testing : REST API Testing, Postman, SOAP UI, SQL Validation, Backend Testing, API Request & Response Validation

Performance Testing : JMeter (Awareness), Load Concepts, Scalability Testing, Performance Monitoring
API & Backend Testing

Agile & Collaboration : Agile/Scrum, Sprint Planning, Stand-ups, Retrospectives, Requirement Analysis, Acceptance Criteria Validation

Tools & Platforms : Git, GitHub, Jira, Jenkins, Maven, CI/CD Pipelines

Cloud & Environment: Azure Fundamentals, Cloud Testing Concepts, Linux (Basic Understanding)

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

01/2024 - Present

Bengaluru

- **Technologies**: Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and executed UI automation scripts using Selenium WebDriver, Java, and TestNG.
- Designed reusable automation frameworks following Page Object Model (POM) architecture.
- Executed regression and functional automation test suites through Jenkins CI/CD pipelines.
- Performed cross-browser testing on Chrome, Firefox, and Edge.
- Collaborated with developers to identify, reproduce, and resolve defects efficiently.
- Improved product quality through automation testing and manual validation of user workflows.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed manual testing and regression testing for banking applications.
- Created detailed test cases, test scenarios, and test documentation based on business requirements.
- Conducted functional, integration, system, and UAT testing.
- Validated backend data using SQL queries.
- Reported and tracked defects using Jira.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Contributed to test strategy, test planning, and test case development based on business and technical requirements
- Executed functional, regression, integration, and end-to-end testing to ensure software quality and release readiness.
- Designed and maintained automation test scripts using Selenium WebDriver and TestNG for improving regression coverage and testing efficiency.
- Developed reusable automation workflows and contributed to automation framework maintenance and continuous improvement.
- Performed REST API testing using Postman, validating API requests, responses, headers, and backend workflows.
- Conducted backend data validation using SQL to ensure consistency and business rule accuracy.
- Collaborated with developers, product owners, and stakeholders to clarify requirements, acceptance criteria, and testing scope.
- Participated actively in Agile/Scrum ceremonies including sprint planning, stand-ups, reviews, and retrospectives
- Logged, tracked, and analyzed using Jira, ensuring release readiness.
- Supported CI/CD automation through Jenkins pipelines to improve release quality and testing efficiency.
- Contributed to testing process improvements and automation best practices.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (AZ-104)
