

# Lakshmi Sree Kella

## Software Engineer QA

9390082224

[kellalakshmisree@gmail.com](mailto:kellalakshmisree@gmail.com) Bengaluru

## SUMMARY

Quality Assurance Engineer / Manual QA Engineer with 3+ years of experience in manual, API, and web application testing in Agile environments. Skilled in creating and executing test plans, test cases, test scenarios, and test documentation to validate software functionality, performance, and user experience. Strong expertise in functional testing, regression testing, exploratory testing, user acceptance testing (UAT), cross-browser testing, defect tracking, and API validation using Postman. Hands-on experience with JIRA, SQL validation, SDLC, STLC, and Agile Scrum methodologies, collaborating with cross-functional teams to deliver high-quality software releases with strong attention to detail and quality standards

## SKILLS

**Quality Assurance & Manual Testing:** Manual Testing, Functional Testing, Regression Testing, Exploratory Testing, User Acceptance Testing (UAT), Integration Testing, System Testing, Smoke Testing, Sanity Testing

**Test Design & Documentation:** Test Plans, Test Cases, Test Scenarios, Test Documentation, Requirement Validation, Defect Reporting

**API & Backend Testing:** Postman, SOAP UI, REST API Testing, API Validation, SQL Query Writing, MySQL

**Defect Management & Tools:** JIRA, Defect Tracking, Bug Reporting, Defect Lifecycle Management

**Cross-Browser Testing:** Chrome, Firefox, Edge, Browser Compatibility Testing

**Methodologies:** Agile Scrum, SDLC, STLC, QA Best Practices

**Automation Exposure:** Selenium WebDriver, Playwright, TestNG

**Core Skills:** Attention to Detail, Problem Solving, Communication, Collaboration, Analytical Thinking

## WORK EXPERIENCE

### *E-Commerce Web Application Automation Testing*

#### QA Engineer

📅 01/2024 - Present

📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

#### Project Description & Responsibilities:

- Created and maintained detailed test plans, test cases, and test scenarios based on business requirements and functional specifications.
- Performed functional, regression, integration, exploratory, system, and user acceptance testing (UAT) to ensure application quality and reliability.
- Conducted API validation and backend data testing using SQL queries to verify system integrations and data consistency.
- Identified, logged, tracked, and retested defects using JIRA, collaborating closely with developers for issue resolution.
- Participated in Agile sprint planning, stand-ups, sprint reviews, and retrospectives to ensure quality deliverables.
- Validated software functionality against business requirements to ensure high-quality application releases.

### Banking Application Functional & Manual Testing

#### Manual Test Engineer

📅 09/2022 - 12/2023

📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

## Project Description & Responsibilities:

- Performed functional testing and manual testing for banking applications including Account Management, Fund Transfer, Loan Processing, and Transaction modules.
- Designed and executed test cases, test scenarios, and test plans based on business requirements and functional specifications.
- Conducted regression, integration, system, and UAT testing to ensure application stability and functionality.
- Executed SQL queries for backend data validation to verify data integrity and business logic.
- Logged, tracked, and managed defects using JIRA, ensuring timely bug resolution and retesting.
- Participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, reviews, and retrospectives.
- Collaborated with developers and business stakeholders to clarify requirements and resolve issues efficiently..

---

## Professional Experience

### Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Executed 5000+ manual test cases for web applications, identifying critical defects and improving software quality.
- Designed and executed functional, regression, smoke, exploratory, and user acceptance test scenarios based on business requirements.
- Conducted REST API testing using Postman to validate integrations, response payloads, and business workflows.
- Performed cross-browser testing to ensure consistent user experience across Chrome, Firefox, and Edge.
- Logged and tracked 1000+ defects using JIRA, ensuring complete defect lifecycle management.
- Prepared test execution reports, quality dashboards, and defect metrics to communicate release readiness.
- Basic exposure to mobile application testing and responsive UI validation

## EDUCATION

---

### Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

## CERTIFICATIONS

- 
- Selenium with Java – Automation Testing (Udemy, 2024)
  - REST API Testing with Postman (Udemy, 2024)
  - Microsoft Certified: Azure Fundamentals (AZ-900)
  - Microsoft Certified: Azure Administrator Associate (Az-104)
