

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com

Bengaluru

SUMMARY

QA Engineer with 3+ years of experience in manual testing, automation testing, API testing, and end-to-end system validation for complex web-based applications in Agile environments. Strong expertise in functional testing, regression testing, REST API validation, SQL backend testing, exploratory testing, and defect lifecycle management. Hands-on experience in client-side (UI) and server-side testing, troubleshooting production issues, and ensuring product quality through comprehensive testing strategies. Skilled in collaborating with product, engineering, and technical teams to validate business requirements, identify root causes, and improve customer experience through high-quality releases.

SKILLS

QA & Testing : Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, End-to-End Testing, System Testing, Exploratory Testing, White-box Testing, Black-box Testing, Requirement Analysis, Root Cause Analysis, Defect Lifecycle Management

API & Backend Testing : REST API Testing, RESTful APIs, API Validation, Postman, SOAP UI, JSON/XML Validation, Backend Testing, Server-side Testing, SQL, MySQL, Data Validation

UI & Client-Side Testing : Web UI Testing, Client-side Testing, Browser Developer Tools, Cross-Browser Testing, UI Validation

Automation Testing : Selenium WebDriver, Playwright, UI Automation Testing, TestNG, Automation Test Scripts, Regression Automation

Tools & Collaboration : Jira, Git, GitHub, Maven, Jenkins, Agile/Scrum

Cloud & Environment : Azure Fundamentals, Cloud Platforms (Exposure), Linux Environment (Basic Understanding)

Technical Concepts : HTTP Protocol, TCP/IP Fundamentals, Troubleshooting, Analytical Problem Solving

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

📅 01/2024 - Present

📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and executed UI automation scripts using Selenium WebDriver, Java, and TestNG.
- Designed reusable automation frameworks following Page Object Model (POM) architecture.
- Executed regression and functional automation test suites through Jenkins CI/CD pipelines.
- Performed cross-browser testing on Chrome, Firefox, and Edge.
- Collaborated with developers to identify, reproduce, and resolve defects efficiently.
- Improved product quality through automation testing and manual validation of user workflows.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023

📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed manual testing and regression testing for banking applications.
- Created detailed test cases, test scenarios, and test documentation based on business requirements.
- Conducted functional, integration, system, and UAT testing.
- Validated backend data using SQL queries.
- Reported and tracked defects using Jira.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Worked closely with cross-functional teams including product, development, and technical stakeholders to understand customer workflows and validate application behavior in real-world scenarios
- Designed, executed, and maintained end-to-end test cases for web applications covering business workflows, integrations, and customer use cases.
- Performed manual testing, black-box testing, and exploratory testing to identify functional gaps and usability issues.
- Conducted server-side and backend validation using SQL, ensuring data accuracy and business rule compliance.
- Executed RESTful API testing using Postman, validating API payloads, headers, parameters, and response status codes.
- Performed client-side testing using browser developer tools, identifying UI defects and troubleshooting issues across application layers.
- Developed and maintained automation scripts using Playwright for regression testing and critical user workflows.
- Identified, analyzed, documented, and tracked defects using Jira, collaborating with engineering teams for timely issue resolution.
- Participated in requirement reviews, identifying test requirements and contributing quality insights for feature releases.
- Conducted root cause analysis on testing issues, improving defect detection and regression coverage

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
