

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

Automation Tester / QA Automation Engineer with 3+ years of experience in manual, API, and automation testing for web-based applications in Agile/Scrum environments. Strong expertise in designing, developing, and maintaining automation test scripts using Selenium WebDriver, Java, TestNG, Cucumber (BDD), Maven, and Page Object Model (POM) frameworks. Experienced in creating and executing test plans, test cases, automation test suites, regression, smoke, sanity, and functional testing to ensure high-quality software releases. Hands-on experience with Jenkins CI/CD pipelines, Git/GitHub version control, REST API testing using Postman, SQL validation, and defect lifecycle management using JIRA. Strong analytical, troubleshooting, and collaboration skills with a commitment to continuous quality improvement.

SKILLS

Automation Testing: Selenium WebDriver, Playwright, UI Automation, Automation Framework Development, Cross-Browser Testing

Programming Languages: Java, JavaScript, C

Frameworks: TestNG, Cucumber, BDD, Page Object Model (POM), Hybrid Framework, Maven

API & Backend Testing: Postman, SOAP UI, REST API Testing, API Validation, SQL Query Writing, MySQL

Version Control & CI/CD: Git, GitHub, Jenkins, CI/CD Pipelines

Testing Types: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, System Testing, UAT, Exploratory Testing

Defect & Test Management: JIRA, Defect Lifecycle Management, Bug Tracking, Test Planning, Test Case Design, Test Suite Maintenance

Methodologies: Agile Scrum, SDLC, STLC, QA Methodologies

Core Skills: Problem Solving, Troubleshooting, Communication, Collaboration, Analytical Thinking

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

01/2024 - Present

Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and maintained automation test scripts using Selenium WebDriver with Java and TestNG for critical e-commerce modules including Login, Product Search, Cart, Checkout, and Payments.
- Designed and implemented a scalable automation framework using Selenium, Java, TestNG, and Page Object Model (POM) to improve automation maintainability.
- Created, executed, and maintained automation test suites for functional, regression, smoke, and sanity testing to ensure release quality.
- Integrated automation test execution with Jenkins CI/CD pipelines for continuous quality validation.
- Collaborated with developers, business analysts, and QA teams to analyze requirements, validate fixes, and improve product quality.
- Identified, logged, and tracked defects using JIRA, ensuring timely defect resolution and retesting.
- Improved automation coverage and reduced manual effort by automating repetitive business-critical workflows.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed functional testing and manual testing for banking applications including Account Management, Fund Transfer, Loan Processing, and Transaction modules.
- Designed and executed test cases, test scenarios, and test plans based on business requirements and functional specifications.
- Conducted regression, integration, system, and UAT testing to ensure application stability and functionality.
- Executed SQL queries for backend data validation to verify data integrity and business logic.
- Logged, tracked, and managed defects using JIRA, ensuring timely bug resolution and retesting.
- Participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, reviews, and retrospectives.
- Collaborated with developers and business stakeholders to clarify requirements and resolve issues efficiently..

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Executed 5000+ functional and regression test cases, ensuring software quality and reducing production defects.
- Developed and maintained Playwright automation scripts using JavaScript to improve regression testing efficiency.
- Designed and executed test plans, test cases, and automation scenarios based on user stories and requirements.
- Conducted REST API testing using Postman and backend validation using SQL queries.
- Participated in Agile Scrum ceremonies, sprint planning, retrospectives, and defect triage meetings.
- Collaborated with engineering teams to troubleshoot application issues and validate fixes.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

- Selenium with Java – Automation Testing (Udemy, 2024)
- REST API Testing with Postman (Udemy, 2024)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure Administrator Associate (AZ-104)
