

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

QA Automation Engineer with 3+ years of experience in Selenium WebDriver Automation Testing, BDD Cucumber Framework, API Testing, and Manual Testing for web and enterprise applications. Strong expertise in designing and maintaining BDD automation frameworks using Selenium WebDriver, Java, Cucumber (Gherkin), TestNG, Maven, and Page Object Model (POM). Hands-on experience in REST API testing using Postman and Rest Assured concepts, regression testing, defect management, test execution, and CI/CD integration using Jenkins. Skilled in creating feature files, reusable automation scripts, test data management, root cause analysis, and defect tracking using Jira and Zephyr in Agile environments.

SKILLS

QA Testing Skills:

Automation Testing: Selenium WebDriver, Selenium Java, Playwright, TestNG, JUnit (Basic Knowledge), BDD Framework, Cucumber, Gherkin, Page Object Model (POM), Hybrid Framework, Test Automation Framework Development

Programming Languages: Java, JavaScript (Basic), C

API Testing: REST API Testing, Postman, REST Assured (Knowledge), SOAP UI, JSON/XML Validation, API Request & Response Validation

Framework & Build Tools: Maven, Jenkins, CI/CD Pipeline Integration, Dependency Management

Testing Types: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, System Testing, End-to-End Testing, Automation Testing

QA & Test Management: Jira, Zephyr, Defect Tracking, Bug Reporting, Root Cause Analysis, Test Case Design, Test Data Management, Test Documentation, Test Execution Reporting

Database Testing: SQL, MySQL

Version Control & Collaboration: Git, GitHub, Agile Scrum Methodology

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

01/2024 - Present

Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and maintained BDD automation test frameworks using Selenium WebDriver, Java, and Cucumber.
- Created and maintained Gherkin feature files and step definitions for automation scenarios.
- Implemented Page Object Model (POM) architecture for reusable and scalable automation scripts.
- Executed functional, regression, smoke, and sanity testing using automated test suites.
- Integrated test execution with Maven and Jenkins CI/CD pipelines.
- Performed cross-browser testing and validated application functionality across environments.
- Generated execution reports and collaborated with teams to resolve automation failures and defects.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed manual and functional testing for banking applications involving account management, fund transfer, loan processing, and transaction workflows.
- Created detailed test scenarios, test cases, and test data aligned with business and functional requirements.
- Conducted backend data validation using SQL queries to ensure consistency and data accuracy across modules.
- Performed Regression Testing, Integration Testing, System Testing, and UAT for release validation.
- Logged and managed defects in Jira, collaborating with teams for resolution and retesting.
- Participated in Agile sprint ceremonies and collaborated with stakeholders to ensure quality deliverables.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Designed, developed, and maintained automation test scripts using Selenium WebDriver with Java for validating web applications.
- Built and executed BDD automation frameworks using Cucumber and Gherkin feature files, improving regression coverage and test maintainability.
- Implemented Page Object Model (POM) design pattern for scalable and reusable automation frameworks.
- Performed automation testing using Selenium WebDriver, Java, TestNG, and Maven for functional and regression testing.
- Executed REST API testing using Postman, validating RESTful API responses, JSON/XML payloads, headers, request parameters, and status codes.
- Participated in test execution, result analysis, debugging, and troubleshooting automation failures.
- Maintained test data, reusable automation scripts, test documentation, and execution reports.
- Conducted root cause analysis on test failures and collaborated with developers to resolve defects efficiently.
- Managed defect lifecycle using Jira and Zephyr, documenting issues and tracking resolutions.
- Executed automation suites using Jenkins CI/CD pipelines for continuous validation and deployment testing.
- Collaborated closely with QA and development teams in Agile Scrum environments.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
