

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

QA Tester / Quality Assurance Engineer with 3+ years of experience in manual, API, and automation testing for web-based applications in Agile/SCRUM environments. Experienced in reviewing requirements, designing test plans, test cases, and test scenarios, and executing functional, regression, smoke, sanity, exploratory, and integration testing to ensure software quality and reliability. Hands-on experience with Playwright, Selenium WebDriver, Postman, SQL validation, Git, Jenkins, and JIRA for defect tracking and test execution. Strong understanding of SDLC, STLC, CI/CD pipelines, defect lifecycle management, and quality assurance methodologies, with proven analytical, problem-solving, and collaboration skills to deliver high-quality software releases.

SKILLS

Quality Assurance & Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Exploratory Testing, Integration Testing, System Testing, User Acceptance Testing (UAT)

Automation Testing: Playwright, Selenium WebDriver, TestNG, BDD, Cucumber, Test Automation Frameworks

API Testing: Postman, SOAP UI, REST API Testing, API Validation

Defect Management & Documentation: JIRA, Bug Tracking, Defect Lifecycle Management, Test Case Design, Test Planning, Test Documentation, Requirement Analysis

Databases: SQL Query Writing, SQL Validation, MySQL

CI/CD & Version Control: Git, GitHub, Jenkins, Maven, CI/CD Pipelines

Methodologies: Agile Scrum, SDLC, STLC, Quality Assurance Principles

Programming: Java, JavaScript, C

Core Skills: Problem Solving, Analytical Thinking, Communication Skills, Collaboration, Attention to Detail

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

📅 01/2024 - Present 📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Independently reviewed requirements, user stories, and acceptance criteria to design effective test scenarios and ensure testability.
- Designed, developed, executed, and maintained manual and automated test cases using Selenium WebDriver, Java, and TestNG.
- Performed functional, regression, smoke, sanity, and exploratory testing to ensure software reliability and release quality.
- Conducted cross-browser testing to validate seamless user experience across Chrome, Firefox, and Edge.
- Identified, logged, tracked, and retested defects using JIRA, collaborating closely with developers until resolution.
- Integrated automated test execution with Jenkins CI/CD pipelines for continuous quality validation.
- Maintained detailed test documentation, defect reports, and quality metrics.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed functional testing and manual testing for banking applications including Account Management, Fund Transfer, Loan Processing, and Transaction modules.
- Designed and executed test cases, test scenarios, and test plans based on business requirements and functional specifications.
- Conducted regression, integration, system, and UAT testing to ensure application stability and functionality.
- Executed SQL queries for backend data validation to verify data integrity and business logic.
- Logged, tracked, and managed defects using JIRA, ensuring timely bug resolution and retesting.
- Participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, reviews, and retrospectives.
- Collaborated with developers and business stakeholders to clarify requirements and resolve issues efficiently..

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Executed 5000+ manual test cases to validate software functionality, identify defects, and improve release quality.
- Designed and executed functional, regression, smoke, exploratory, and system test cases based on business requirements.
- Performed Playwright automation testing for critical workflows to improve regression efficiency.
- Conducted REST API testing using Postman, validating payloads, headers, parameters, and status codes.
- Performed SQL backend validation to ensure database consistency and business rule compliance.
- Participated actively in Agile sprint planning, daily stand-ups, sprint reviews, and retrospectives.
- Prepared test execution reports, defect metrics, and QA documentation to communicate testing status and release readiness.
- Collaborated closely with developers, business analysts, and product owners to clarify requirements and resolve defects efficiently.
- Prepared test execution reports, defect metrics, and quality dashboards to communicate testing status and release readiness.
- Documented and maintained reusable test cases and reports, increasing QA onboarding speed and regression suite reusability

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
