kellalakshmisree@gmail.com

Bengaluru

SUMMARY

Manual, API, and Automation QA Engineer with 3+ years of experience testing web and API-based applications in Agile environments. Strong expertise in manual testing, test case design, defect management, API testing, and SQL validation, with hands-on experience in UI automation using Playwright. Experienced in building and executing test scripts for regression testing, improving test efficiency, and ensuring high-quality releases through close collaboration with developers and stakeholders

SKILLS

Programming : Java, C

Frameworks : TestNG, BDD, Cucumber, POM, Hybrid, Maven

Databases : MySQL

API & Backend Testing: Postman, SOAP UI

Project Management Tools : Jira, Git, GitHub

Automation Testing Tools: Selenium, playwright

Operating Systems : Windows 7,8,10,11

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Automation Engineer

01/2024 - Present

Bengaluru

- Technologies**: Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM)

Project Description & Responsibilities:

- Developed and maintained automation test scripts for an e-commerce web application covering Login, Product Search, Cart, Checkout, and Payment modules.
- Designed a scalable automation framework using Selenium WebDriver with Java and TestNG following the Page Object Model (POM) design pattern.
- Executed regression, smoke, and sanity test suites through Jenkins CI/CD pipelines for every build deployment.
- Performed cross-browser testing on Chrome, Firefox, and Edge to ensure application compatibility and stability.
- Integrated automation scripts with Maven and generated detailed execution reports using TestNG reports.
- Collaborated with developers and business analysts to identify defects, track issues, and validate bug fixes.
- Reduced manual testing effort by automating repetitive test cases, improving overall test coverage and release quality.

Banking Application Functional & Manual Testing

Manual Test Engineer

09/2022 - 12/2023

Bengaluru

- Technologies**: Jira, SQL, Agile Methodology, Excel, Test Case Management

Project Description & Responsibilities:

- Performed end-to-end manual testing for a banking application involving Account Management, Fund Transfer, Loan Processing, and Transaction modules.
- Created detailed test scenarios, test cases, and test data based on business requirement documents and functional specifications.
- Conducted Functional Testing, Regression Testing, Integration Testing, System Testing, and User Acceptance Testing (UAT).
- Logged and tracked defects using Jira and coordinated with development teams for issue resolution and retesting.
- Validated backend data using SQL queries to ensure data consistency and accuracy across application modules.
- Participated in Agile sprint planning, daily stand-ups, sprint reviews, and defect triage meetings.
- Ensured high-quality application releases by performing thorough requirement validation and test execution within timelines.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Executed 5000+ manual test cases for web applications, identifying critical defects and reducing production issues.
- Designed and executed functional, regression, smoke, and exploratory test cases based on business requirements and user stories.
- Performed UI automation testing using Playwright with JavaScript, automating key regression scenarios to improve test execution efficiency.
- Developed and maintained Playwright automation scripts for critical user workflows using reusable components.
- Conducted REST and API testing using Postman, validating JSON/XML payloads, headers, parameters, and status codes.
- Performed backend data validation using SQL, ensuring data accuracy and business rule compliance.
- Logged, tracked, and managed 1000+ defects using JIRA, handling the complete defect lifecycle from identification to closure.
- Actively participated in Agile Scrum ceremonies including sprint planning, daily stand-ups, reviews, and retrospectives.
- Collaborated closely with developers, business analysts, and product owners to clarify requirements and resolve defects efficiently.
- Prepared test execution reports, defect metrics, and quality dashboards to communicate testing status and release readiness.
- Documented and maintained reusable test cases and reports, increasing QA onboarding speed and regression suite reusability.

EDUCATION

Bachelor of Science (B.Sc) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajamandry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (AZ-104)
