

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

SDET / QA Automation Engineer with 3+ years of experience in UI Automation Testing, API Testing, Manual Testing, and Automation Framework Development for web applications in Agile environments. Strong expertise in Java, Selenium WebDriver, TestNG, BDD Cucumber Framework, API Testing, and CI/CD integration using Jenkins. Hands-on experience creating and maintaining automation test scripts, Selenium frameworks, regression suites, and REST API validation using Postman with exposure to Rest Assured concepts. Skilled in Git/GitHub, Maven, manual testing, defect management, and product quality assurance, with strong analytical and coding capabilities.

SKILLS

SDET / Automation Testing : Selenium WebDriver, Selenium with Java, UI Automation Testing, Playwright, TestNG, BDD Framework, Cucumber, Gherkin, Automation Framework Development, Test Automation Scripts, Cross-Browser Testing

Programming Languages : Java, JavaScript (Basic), C

API Testing & Automation : REST API Testing, API Automation, Postman, REST Assured (Knowledge/Exposure), SOAP UI, JSON/XML Validation, API Request & Response Validation

CI/CD & Version Control : Jenkins, CI/CD Pipelines, Git, GitHub, Git Actions (Awareness), Maven, VCS

Manual Testing : Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, System Testing, User Acceptance Testing (UAT)

QA & Defect Management : Jira, Test Case Design, Bug Tracking, Defect Lifecycle Management, QA Documentation, Product Quality Assurance

Database Testing : SQL, MySQL, Backend Data Validation

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

📅 01/2024 - Present 📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and executed UI automation scripts using Selenium WebDriver, Java, and TestNG.
- Designed reusable automation frameworks following Page Object Model (POM) architecture.
- Executed regression and functional automation test suites through Jenkins CI/CD pipelines.
- Performed cross-browser testing on Chrome, Firefox, and Edge.
- Collaborated with developers to identify, reproduce, and resolve defects efficiently.
- Improved product quality through automation testing and manual validation of user workflows.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed manual testing and system testing for banking applications involving Account Management, Fund Transfer, Loan Processing, and Transaction workflows.
- Designed and executed test scenarios, test cases, and regression test suites aligned with business and technical requirements.
- Conducted functional testing, regression testing, system testing, integration testing, and UAT.
- Validated backend data consistency using SQL queries.
- Reported and tracked defects through Jira defect lifecycle management.
- Collaborated with QA teams, developers, and stakeholders to ensure successful releases.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Designed, developed, and maintained UI automation test scripts using Selenium WebDriver with Java and TestNG for validating web application functionality.
- Built and maintained BDD automation frameworks using Cucumber and Gherkin feature files for scalable and reusable automation.
- Performed manual testing, functional testing, regression testing, and smoke testing for end-to-end validation of business workflows.
- Executed API testing using Postman, validating REST APIs, JSON/XML payloads, request parameters, and status codes.
- Worked with API automation concepts using Rest Assured exposure for REST API validation.
- Implemented reusable automation scripts and maintained test frameworks using Maven and Page Object Model (POM).
- Integrated automated regression suites into CI/CD pipelines using Jenkins to improve release quality and automation efficiency.
- Used Git/GitHub version control systems (VCS) for source code management and collaboration.
- Logged, tracked, and resolved defects using Jira, collaborating with QA and development teams to ensure product quality.
- Participated in Agile ceremonies and contributed to continuous quality improvements.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
