

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

Results-driven Software QA Engineer with 3+ years of experience in Manual, Functional, API, and Automation Testing across web and enterprise applications in Agile environments. Strong understanding of Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC) with expertise in test scenario preparation, test case design, test execution, defect tracking, and software QA methodologies. Hands-on experience in Black Box Testing, Ad-hoc Testing, Smoke Testing, Sanity Testing, Regression Testing, Integration Testing, and System Testing. Skilled in reproducing reported issues, maintaining test environments, defect lifecycle management using Jira, and ensuring high-quality software releases through effective collaboration and analytical problem-solving.

SKILLS

Testing Methodologies: Manual Testing, Functional Testing, Black Box Testing, Ad-hoc Testing, Smoke Testing, Sanity Testing, Regression Testing, Integration Testing, System Testing, Exploratory Testing, UAT, API Testing

QA Process Knowledge: SDLC, STLC, Defect Life Cycle, Test Scenario Preparation, Test Case Design, Defect Reporting & Tracking, Requirement Analysis, Bug Reproduction, Test Execution, Test Environment Setup & Maintenance

Automation Tools & Frameworks: Selenium WebDriver, Playwright, TestNG, Cucumber, BDD, POM, Hybrid Framework, Maven

Defect & Test Management Tools: JIRA, Git, GitHub, Test Case Management

Programming Languages: Java, C

Database & API Testing: MySQL, SQL, Postman, SOAP UI

Methodologies: Agile Scrum

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

01/2024 - Present

Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and maintained automation test scripts using Selenium WebDriver with Java and TestNG for critical e-commerce modules including Login, Product Search, Cart, Checkout, and Payments.
- Designed and implemented a scalable automation framework using Selenium, Java, TestNG, and Page Object Model (POM) to improve automation maintainability.
- Created, executed, and maintained automation test suites for functional, regression, smoke, and sanity testing to ensure release quality.
- Integrated automation test execution with Jenkins CI/CD pipelines for continuous quality validation.
- Collaborated with developers, business analysts, and QA teams to analyze requirements, validate fixes, and improve product quality.
- Identified, logged, and tracked defects using JIRA, ensuring timely defect resolution and retesting.
- Improved automation coverage and reduced manual effort by automating repetitive business-critical workflows.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Prepared detailed test scenarios, test cases, and test data based on business requirements and functional specifications.
- Executed black box, ad-hoc, smoke, sanity, regression, integration, and system testing to validate application functionality.
- Reported, tracked, and retested defects using JIRA, ensuring complete defect lifecycle management.
- Reproduced issues reported from production/field environments and collaborated with development teams for resolution.
- Participated in exploratory testing sessions to identify edge cases, usability issues, and new test scenarios.
- Supported test environment setup and maintenance for successful execution of QA activities.
- Provided regular testing progress updates, defect reports, and execution status to stakeholders and QA leadership.
- Validated backend data using SQL queries to ensure business logic accuracy and data consistency.
- Worked within Agile Scrum methodology and participated in sprint ceremonies.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Executed and maintained manual test cases and test scenarios aligned with SDLC and STLC processes.
- Conducted smoke, sanity, regression, integration, system, and exploratory testing for web applications.
- Performed defect reporting, defect tracking, retesting, and root cause analysis using JIRA.
- Reproduced customer-reported issues to support defect resolution and improve software quality.
- Prepared QA status reports and communicated testing progress with stakeholders.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
