

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

QA Automation Engineer / Test Engineer with 3+ years of experience in manual, web, API, and automation testing for client-facing web applications in Agile/Scrum environments. Strong expertise in designing, developing, and maintaining automation test scripts and frameworks using Java, Selenium WebDriver, TestNG, Playwright, and BDD frameworks such as Cucumber. Experienced in functional, regression, smoke, sanity, integration, and acceptance testing, along with test case design, defect management, and release validation. Hands-on experience in SQL database validation, REST API testing using Postman, CI/CD integration using Jenkins, and test management using JIRA. Strong understanding of SDLC, STLC, QA methodologies, and software testing principles, with proven analytical, debugging, and cross-functional collaboration skills to deliver high-quality software products.

SKILLS

Automation Testing: Selenium WebDriver, Playwright, UI Automation, Cross-Browser Testing, Test Automation Frameworks

Programming Languages: Java, JavaScript, C

Frameworks: TestNG, Cucumber, BDD, Maven, Page Object Model (POM), Hybrid Framework

API & Database Testing: Postman, SOAP UI, REST API Testing, SQL Query Writing, Database Validation, MySQL

Testing Types: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, Acceptance Testing, Exploratory Testing, System Testing, UAT

Defect & Test Management: JIRA, Test Case Design, Test Scenarios, Test Artifacts, Bug Tracking, Defect Lifecycle Management

CI/CD & Version Control: Jenkins, Git, GitHub, CI/CD Pipelines

Methodologies: Agile Scrum, SDLC, STLC, QA Principles

Core Skills: Problem Solving, Debugging, Analytical Thinking, Stakeholder Collaboration, Communication, Attention to Detail

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

01/2024 - Present

Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Rewrite with stronger Gartner keywords:
- Reviewed functional requirements, user stories, and acceptance criteria to create comprehensive test scenarios and ensure product quality.
- Designed, developed, and maintained automation test scripts using Java, Selenium WebDriver, and TestNG for web application testing.
- Built scalable automation frameworks following Page Object Model (POM) standards to improve test maintainability.
- Executed manual and automated testing, including functional, regression, smoke, sanity, and acceptance testing.
- Created and maintained regression test suites to support release readiness and improve test coverage.
- Collaborated closely with developers, business analysts, and stakeholders in Agile sprint cycles to identify defects and validate fixes.
- Performed cross-browser web testing across Chrome, Firefox, and Edge to ensure seamless user experience.
- Integrated test execution into Jenkins CI/CD pipelines for continuous testing and release validation.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed functional testing and manual testing for banking applications including Account Management, Fund Transfer, Loan Processing, and Transaction modules.
- Designed and executed test cases, test scenarios, and test plans based on business requirements and functional specifications.
- Conducted regression, integration, system, and UAT testing to ensure application stability and functionality.
- Executed SQL queries for backend data validation to verify data integrity and business logic.
- Logged, tracked, and managed defects using JIRA, ensuring timely bug resolution and retesting.
- Participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, reviews, and retrospectives.
- Collaborated with developers and business stakeholders to clarify requirements and resolve issues efficiently..

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Executed 5000+ manual and automated test cases for web applications to validate functionality and improve software quality.
- Designed and executed functional, regression, smoke, exploratory, and acceptance testing based on business requirements.
- Performed Playwright automation testing to automate regression scenarios and improve release efficiency.
- Conducted REST API testing using Postman and SQL database validation for end-to-end testing.
- Logged, tracked, and managed defects using JIRA, supporting full defect lifecycle management.
- Participated actively in Agile sprint planning, stand-ups, sprint reviews, retrospectives, and release validation activities.
- Maintained detailed test artifacts, execution reports, and defect metrics to support production releases.
- Basic understanding of mobile testing concepts (Android/iOS)

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
