

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

Quality Assurance Specialist / QA Engineer with 3+ years of experience in manual, API, and automation testing for web-based applications in Agile environments. Experienced in developing test plans, test cases, and test scripts to ensure software quality, functionality, and reliability. Skilled in functional, regression, integration, system, and API testing, defect tracking, and quality assurance processes. Hands-on experience with Selenium WebDriver, Playwright, TestNG, Postman, SQL validation, and CI/CD tools such as Jenkins. Strong understanding of SDLC, STLC, QA methodologies, software quality standards, and defect lifecycle management, with excellent analytical, problem-solving, and collaboration skills.

SKILLS

Quality Assurance & Testing: Software Quality Assurance, Manual Testing, Automated Testing, Functional Testing, Regression Testing, Integration Testing, System Testing, Smoke Testing, Sanity Testing, User Acceptance Testing (UAT)

Automation Testing: Selenium WebDriver, Playwright, TestNG, Test Automation Frameworks, Cross-Browser Testing

API & Backend Testing: Postman, SOAP UI, REST API Testing, API Validation, SQL Validation

Defect & Test Management: JIRA, Defect Tracking, Bug Reporting, Test Case Design, Test Plans, Test Scripts, Quality Documentation

Programming & Databases: Java, C, MySQL, SQL

CI/CD & Tools: Jenkins, Git, GitHub, Maven

Methodologies: Agile Scrum, SDLC, STLC, QA Methodologies, Defect Lifecycle Management

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

01/2024 - Present Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and executed test plans, test cases, and automated test scripts for critical business workflows including Login, Product Search, Cart, Checkout, and Payment modules.
- Performed manual and automated testing to validate software functionality, reliability, and quality standards.
- Executed functional, regression, smoke, and integration testing to ensure defect-free releases.
- Identified, documented, tracked, and validated defects using JIRA, collaborating closely with developers to ensure timely resolution.
- Conducted cross-browser compatibility testing to ensure consistent system functionality across Chrome, Firefox, and Edge.
- Integrated automated testing within Jenkins CI/CD pipelines to improve testing efficiency and release quality.
- Verified application functionality against business and system requirements.

Banking Application Functional & Manual Testing

Manual Test Engineer

09/2022 - 12/2023 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Created and maintained test plans, test cases, and test scripts based on business requirements and functional specifications.
- Conducted functional, regression, integration, system, and UAT testing to ensure software quality and compliance.
- Performed backend data validation using SQL to verify accuracy, consistency, and business rule compliance.
- Logged and managed defects using JIRA, collaborating with development teams for resolution and retesting.
- Participated in Agile ceremonies, ensuring alignment between testing activities and sprint goals.
- Supported quality assurance efforts by validating system functionality and improving overall user experience.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Prepared, maintained, and executed test cases based on user stories and business requirements, ensuring complete functional coverage.
- Designed and maintained automated test scripts using Selenium WebDriver, Java, and TestNG for regression and function testing
- Maintained traceability between business requirements, test cases, and automation scripts to ensure testing completeness.
- Reviewed automation approaches and test coverage with cross-functional stakeholders to improve testing quality.
- Performed functional, regression, smoke, sanity, compatibility, and end-to-end testing for enterprise web applications.
- Conducted REST API testing using Postman, validating payloads, headers, request parameters, response codes, and business workflows.
- Performed backend database validation using SQL queries to ensure data accuracy and consistency.
- Supported CI/CD delivery pipeline execution through Jenkins, improving automation efficiency and release quality.
- Logged, tracked, and triaged defects using JIRA, communicating quality risks and testing progress with stakeholders.
- Collaborated with developers, product owners, and QA teams in Agile/Scrum environments, participating in sprint planning, stand-ups, retrospectives, and defect triage meetings.
- Basic understanding of data privacy and security best practices in software quality assurance
- Contributed to reusable automation functions and regression suite improvements using Page Object Model (POM).

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (AZ-104)
