Bengaluru

SUMMARY

QA Automation Engineer with 3+ years of experience in Web UI Automation Testing, API Testing, and Functional Testing for web-based applications. Strong expertise in Java, Selenium WebDriver, TestNG, automation test script development, regression testing, and REST API validation. Hands-on experience creating and maintaining automation frameworks, UI automation scripts, defect tracking, and CI/CD integration using Jenkins. Skilled in Postman, REST API testing, SQL validation, Agile methodology, and product quality assurance with strong analytical and problem-solving abilities.

SKILLS

QA Automation & UI Testing : Selenium WebDriver, Web UI Automation, Playwright, UI Automation Testing, TestNG, Automation Test Script Development, Cross-Browser Testing, Functional Testing, Regression Testing, Smoke Testing

Programming Languages : Java, JavaScript (Basic), C

API Testing & Automation : REST API Testing, API Validation, Postman, SOAP UI, Rest Assured (Knowledge/Exposure), JSON/XML Validation

CI/CD & DevOps : Jenkins, CI/CD Pipelines, Git, GitHub, Maven

QA & Test Management : QA Automation, Test Case Design, Test Planning, Defect Tracking, Bug Reporting, Test Execution, Product Quality Assurance, Agile/Scrum

Database Testing : SQL, MySQL, Backend Data Validation

Tools : Jira, Maven, Browser Developer Tools

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

📅 01/2024 - Present

📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and maintained automation test scripts using Java, Selenium WebDriver, and TestNG.
- Executed Web UI automation testing for Login, Product Search, Cart, Checkout, and Payment modules.
- Conducted regression and functional automation testing to validate application quality.
- Performed cross-browser testing across Chrome, Firefox, and Edge.
- Executed automated test suites through Jenkins CI/CD pipelines.
- Collaborated with development teams to identify defects and improve product quality.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023

📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed manual testing and system testing for banking applications involving Account Management, Fund Transfer, Loan

- Processing, and Transaction workflows.
- Designed and executed test scenarios, test cases, and regression test suites aligned with business and technical requirements.
- Conducted functional testing, regression testing, system testing, integration testing, and UAT.
- Validated backend data consistency using SQL queries.
- Reported and tracked defects through Jira defect lifecycle management.
- Collaborated with QA teams, developers, and stakeholders to ensure successful releases.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Performed Web UI automation testing using Java, Selenium WebDriver, and TestNG for validating application functionality and quality.
- Designed, developed, and maintained automation test scripts for functional and regression testing.
- Executed UI automation testing for critical business workflows to improve test efficiency and product quality.
- Performed API testing using Postman, validating REST APIs, JSON/XML payloads, request parameters, and response status codes.
- Worked with REST API automation concepts and Rest Assured exposure for API validation.
- Integrated automated test execution through Jenkins CI/CD pipelines for continuous testing and deployment support.
- Collaborated with QA and development teams to identify, track, and report defects using Jira.
- Performed functional, smoke, regression, and integration testing for release validation.
- Maintained test execution reports, QA documentation, and automation test artifacts.
- Participated in Agile ceremonies and collaborated with stakeholders to ensure software quality.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
