

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

Results-oriented QA Engineer with 3+ years of experience in Manual, API, and Automation Testing across web-based and enterprise applications in Agile environments. Strong expertise in UI and API testing, test planning, test case design, test execution, automation framework development, defect lifecycle management, and CI/CD integration. Hands-on experience with Playwright, Selenium, REST APIs, Postman, SQL validation, and regression automation to improve software quality, performance, and release velocity. Strong understanding of SDLC, STLC, QA automation processes, root cause analysis, troubleshooting, and cross-functional collaboration. Experienced in working closely with development, operations, and product teams to ensure high-quality software delivery.

SKILLS

QA & Testing Expertise: Manual Testing, Functional Testing, UI Testing, API Testing, REST API Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, System Testing, Exploratory Testing, Black Box Testing, End-to-End Testing, Cross-Browser Testing, Defect Tracking, Bug Reproduction, Root Cause Analysis

Test Planning & Automation: Test Planning, Test Design, Test Execution, Test Case Development, Automation Framework Development, Continuous Testing, QA Automation in SDLC, Test Strategy, Quality Engineering

Automation Tools & Frameworks: Playwright, Selenium WebDriver, TestNG, Cucumber, BDD, POM, Hybrid Framework, Maven, Jenkins

Programming Languages: Java, JavaScript, TypeScript (Basic), C

API & Backend Testing: REST APIs, Postman, SOAP UI, JSON/XML Validation, API Automation, MySQL, SQL

DevOps & CI/CD: Jenkins, CI/CD Pipelines, Continuous Integration, Test Automation Integration

Defect & Project Management: JIRA, Git, GitHub, Agile Scrum, Defect Lifecycle Management

Soft Skills: Analytical Thinking, Problem Solving, Cross-functional Collaboration, Communication, Fast Learning, Knowledge Sharing

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

01/2024 - Present

Bengaluru

- Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Designed and maintained a scalable automation framework using Selenium WebDriver and TestNG for repeated regression scenarios.
- Automated UI workflows covering Login, Search, Cart, Checkout, and Payment modules to improve testing velocity.
- Executed functional, regression, smoke, and sanity testing for every deployment cycle.
- Integrated automated testing with CI/CD pipelines (Jenkins) to support continuous quality assurance.
- Worked with developers to identify, troubleshoot, and resolve defects, improving release quality and platform stability..
- Improved automation coverage and reduced manual effort by automating repetitive business-critical workflows.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Prepared detailed test scenarios, test cases, and test data based on business requirements and functional specifications.
- Executed black box, ad-hoc, smoke, sanity, regression, integration, and system testing to validate application functionality.
- Reported, tracked, and retested defects using JIRA, ensuring complete defect lifecycle management.
- Reproduced issues reported from production/field environments and collaborated with development teams for resolution.
- Participated in exploratory testing sessions to identify edge cases, usability issues, and new test scenarios.
- Supported test environment setup and maintenance for successful execution of QA activities.
- Provided regular testing progress updates, defect reports, and execution status to stakeholders and QA leadership.
- Validated backend data using SQL queries to ensure business logic accuracy and data consistency.
- Worked within Agile Scrum methodology and participated in sprint ceremonies.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Designed and executed manual and automated test cases for web applications, ensuring functional correctness, system quality, and release readiness.
- Developed and maintained UI automation test scripts using Playwright with JavaScript, improving regression efficiency and test coverage.
- Performed UI and REST API testing using Postman to validate payloads, headers, parameters, authentication, and response validation.
- Collaborated closely with development, infrastructure, and product teams to define testing objectives and improve software quality.
- Created and executed smoke, sanity, regression, exploratory, integration, and system test suites across multiple releases.
- Integrated automated testing into CI/CD pipelines using Jenkins to support continuous testing and faster software delivery.
- Logged, tracked, reproduced, and validated defects using JIRA, creating clear and easy-to-reproduce defect tickets for development teams.
- Conducted root cause analysis and troubleshooting to identify software issues and improve overall application reliability.
- Performed backend data validation using SQL queries to ensure data integrity and business rule compliance.
- Participated actively in Agile/Scrum ceremonies, collaborating with cross-functional teams to align QA strategy with business goals.
- Contributed to test planning, test design, test execution, and automation maintenance, ensuring high-quality software releases.
- Maintained reusable test assets and automation components to improve testing efficiency and scalability.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (AZ-104)
