

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

QA Engineer with 3+ years of experience in Manual Testing, Functional Testing, Web Testing, API Testing, Regression Testing, and UI Validation for web-based applications in Agile environments. Strong expertise in test case design, defect management, REST API validation, SQL testing, cross-browser testing, and QA documentation. Hands-on experience using Postman, Selenium, Playwright, Jira, Git, and CI/CD workflows for validating frontend and backend systems. Familiar with REST APIs, web application testing, browser developer tools, UI/UX validation, and cloud concepts with strong collaboration skills and attention to detail.

SKILLS

QA Testing Skills:

Manual Testing: Functional Testing, Regression Testing, Smoke Testing, System Testing, Integration Testing, End-to-End Testing, Exploratory Testing, Data Testing, API Testing, Web Testing, STLC, Defect Lifecycle Management, Test Case Design, Test Planning, Test Execution, Defect Reporting

Automation Testing: Playwright, Selenium WebDriver, TestNG, Cucumber BDD, Page Object Model (POM), Hybrid Framework

API & Backend Testing: Postman, Swagger, REST API Testing, JSON/XML Validation, SOAP UI, Thunder Client (Basic Exposure)

Database Testing: SQL, MySQL, Data Validation, Data Reconciliation, Data Comparison, Complex Queries, Joins, Aggregations, Backend Data Testing

Cloud & Data Concepts: AWS Cloud Concepts, Azure Fundamentals, Data Pipeline Testing Awareness, Data Validation Techniques

BI & Data Exposure: Power BI (Awareness), Tableau (Awareness), Databricks SQL (Basic Understanding), DBT Testing Exposure (Awareness)

Tools & Platforms: Jira, Git, GitHub, Maven, Jenkins, Agile/Scrum

Programming: Java, JavaScript (Basic), C

Web Technologies: HTML, CSS, DOM Basics

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

01/2024 - Present

Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven

Project Description & Responsibilities:

- Tested web application workflows including Login, Product Search, Cart, Checkout, and Payment modules.
- Performed cross-browser compatibility testing to ensure consistent functionality across browsers.
- Executed manual testing, regression testing, smoke testing, and UI validation for web components.
- Collaborated with developers to identify and validate bug fixes and improve release quality.
- Contributed to automation testing using Selenium WebDriver and reusable test frameworks.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed manual and functional testing for banking applications involving account management, fund transfer, loan processing, and transaction workflows.
- Created detailed test scenarios, test cases, and test data aligned with business and functional requirements.
- Conducted backend data validation using SQL queries to ensure consistency and data accuracy across modules.
- Performed Regression Testing, Integration Testing, System Testing, and UAT for release validation.
- Logged and managed defects in Jira, collaborating with teams for resolution and retesting.
- Participated in Agile sprint ceremonies and collaborated with stakeholders to ensure quality deliverables.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Performed manual testing and functional testing for web-based applications to validate requirements and user workflows.
- Designed and executed test cases, regression suites, and test scenarios for frontend and backend validation.
- Conducted cross-browser testing on Chrome, Firefox, and Edge to ensure consistent UI behavior and compatibility.
- Performed REST API Testing using Postman, validating JSON/XML responses, request payloads, headers, and status codes.
- Validated backend functionality through API testing and SQL data verification to ensure data consistency.
- Identified, reproduced, documented, and tracked defects using Jira, collaborating closely with developers for issue resolution.
- Performed UI/UX validation testing, ensuring layout accuracy, responsiveness, and usability across web applications.
- Developed and maintained automation test scripts using Playwright and Selenium for regression and reusable workflows.
- Participated in Agile ceremonies, including sprint planning, stand-ups, retrospectives, and defect triage discussions.
- Worked with Git/GitHub workflows and CI/CD pipelines (Jenkins) for release validation and quality assurance

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
