

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

Automation Test Engineer with 3+ years of experience in manual, API, and automation testing for web-based applications in Agile environments. Skilled in designing, developing, and maintaining automated test scripts using Selenium WebDriver, Playwright, Java, and TestNG frameworks. Hands-on experience in functional, regression, integration, and API testing with expertise in defect tracking, CI/CD integration, and quality assurance processes. Proficient in Jenkins, Git, Postman, SQL validation, and cross-browser testing, with strong analytical and problem-solving skills to ensure reliable software delivery.

SKILLS

- Programming Languages:** Java, JavaScript, C
- Automation Testing:** Selenium WebDriver, Playwright, Test Automation, UI Automation, Cross-Browser Testing
- Frameworks & Tools:** TestNG, Maven, BDD, Cucumber, POM, Hybrid Framework
- API Testing:** Postman, SOAP UI, REST API Testing, API Validation
- CI/CD & Version Control:** Jenkins, Git, GitHub
- Defect & Test Management:** JIRA, Bug Tracking, Test Case Design, Test Planning, Defect Lifecycle Management
- Databases:** MySQL, SQL Validation
- Testing Types:** Functional Testing, Regression Testing, Integration Testing, Smoke Testing, Sanity Testing, UAT
- Methodologies:** Agile Scrum, SDLC, STLC, Quality Assurance Principles

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

01/2024 - Present Bengaluru

- Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Designed, developed, and maintained automated test scripts using Selenium WebDriver, Java, and TestNG for critical e-commerce workflows.
- Built scalable automation frameworks following Page Object Model (POM) design principles to improve test maintainability.
- Executed functional, regression, smoke, and integration testing across multiple phases of SDLC.
- Integrated automated test suites with Jenkins CI/CD pipelines to support continuous testing and rapid deployments.
- Conducted cross-browser testing across Chrome, Firefox, and Edge to ensure platform compatibility and performance.
- Created and executed test plans, test cases, and test scripts based on business and functional requirements.
- Identified, documented, tracked, and validated defects using JIRA, collaborating closely with development teams for resolution.
- Analyzed test results and communicated software quality status to stakeholders and project teams.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed functional, regression, integration, and system testing for banking applications.
- Designed and executed detailed test cases and test scenarios aligned with product requirements.
- Conducted backend data validation using SQL to verify business logic and data consistency.
- Managed defect lifecycle using JIRA, ensuring timely resolution and retesting.
- Participated actively in Agile Scrum ceremonies, aligning QA activities with sprint objectives.

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Prepared, maintained, and executed test cases based on user stories and business requirements, ensuring complete functional coverage.
- Designed and maintained automated test scripts using Selenium WebDriver, Java, and TestNG for regression and function testing.
- Maintained traceability between business requirements, test cases, and automation scripts to ensure testing completeness.
- Reviewed automation approaches and test coverage with cross-functional stakeholders to improve testing quality.
- Performed functional, regression, smoke, sanity, compatibility, and end-to-end testing for enterprise web applications.
- Conducted REST API testing using Postman, validating payloads, headers, request parameters, response codes, and business workflows.
- Performed backend database validation using SQL queries to ensure data accuracy and consistency.
- Supported CI/CD delivery pipeline execution through Jenkins, improving automation efficiency and release quality.
- Logged, tracked, and triaged defects using JIRA, communicating quality risks and testing progress with stakeholders.
- Collaborated with developers, product owners, and QA teams in Agile/Scrum environments, participating in sprint planning, stand-ups, retrospectives, and defect triage meetings.
- Contributed to reusable automation functions and regression suite improvements using Page Object Model (POM).

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (AZ-104)
