

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

QA Engineer / Automation Test Engineer with 3+ years of experience in manual, API, and automation testing for web-based applications in Agile environments. Skilled in designing, developing, and maintaining automated test scripts using Selenium WebDriver, Playwright, Java, TestNG, and Maven to ensure high-quality software releases. Strong expertise in functional, regression, smoke, sanity, exploratory, and integration testing, along with test case design, defect tracking, API testing, and SQL validation. Hands-on experience integrating automated test suites with Jenkins CI/CD pipelines, version control using Git/GitHub, and collaborating with developers and stakeholders to troubleshoot defects and improve product quality. Strong understanding of SDLC, STLC, QA methodologies, and automation best practices.

SKILLS

Automation Testing: Selenium WebDriver, Playwright, UI Automation, Cross-Browser Testing, Automation Framework Development

Programming Languages : Java, JavaScript, C

Frameworks & Tools: TestNG, Cucumber, BDD, Maven, Page Object Model (POM), Hybrid Framework

API & Backend Testing: Postman, SOAP UI, REST API Testing, API Validation, SQL Query Writing, MySQL

Version Control & CI/CD: Git, GitHub, Jenkins, CI/CD Pipelines

Testing Types: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Exploratory Testing, Integration Testing, UAT, System Testing

Defect Management: JIRA, Bug Reporting, Defect Lifecycle Management, Root Cause Analysis

Methodologies: Agile Scrum, SDLC, STLC, QA Processes

Core Skills: Troubleshooting, Debugging, Problem Solving, Collaboration, Communication, Attention to Detail

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

01/2024 - Present

Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Designed, developed, and maintained automated test scripts using Selenium WebDriver, Java, and TestNG for critical e-commerce workflows.
- Built and maintained scalable automation frameworks using Page Object Model (POM) to improve test reliability and maintainability.
- Executed functional, regression, smoke, sanity, and integration tests to validate new features and ensure release quality.
- Integrated automated tests into Jenkins CI/CD pipelines to support continuous testing and faster feedback cycles.
- Collaborated with developers, product managers, and business analysts to understand requirements and improve software quality.
- Identified, reproduced, logged, and tracked defects using JIRA, ensuring timely resolution and retesting.
- Improved regression coverage and reduced manual effort by automating repetitive test scenarios.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed functional testing and manual testing for banking applications including Account Management, Fund Transfer, Loan Processing, and Transaction modules.
- Designed and executed test cases, test scenarios, and test plans based on business requirements and functional specifications.
- Conducted regression, integration, system, and UAT testing to ensure application stability and functionality.
- Executed SQL queries for backend data validation to verify data integrity and business logic.
- Logged, tracked, and managed defects using JIRA, ensuring timely bug resolution and retesting.
- Participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, reviews, and retrospectives.
- Collaborated with developers and business stakeholders to clarify requirements and resolve issues efficiently..

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Executed 5000+ functional and regression test cases, ensuring software quality and reducing production issues.
- Developed and maintained Playwright automation scripts using JavaScript for critical business workflows.
- Conducted REST API testing using Postman to validate integrations and backend services.
- Performed backend validation using SQL queries to ensure data consistency and business logic accuracy.
- Worked closely with developers and support teams to reproduce customer issues, debug problems, and validate fixes.
- Participated in Agile Scrum ceremonies, sprint planning, defect triage, and release validation.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

- Selenium with Java – Automation Testing (Udemy, 2024)
- REST API Testing with Postman (Udemy, 2024)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure Administrator Associate (Az-104)
