

Lakshmi Sree Kella

Software Engineer QA

9390082224

kellalakshmisree@gmail.com Bengaluru

SUMMARY

Software Engineer / QA Automation Engineer with 3+ years of experience in software quality engineering, automation development, and web application testing in Agile environments. Hands-on experience in developing and maintaining automation scripts and reusable frameworks using Java, Selenium WebDriver, Playwright, and TestNG. Skilled in troubleshooting software issues, analyzing requirements, collaborating with cross-functional teams, and delivering high-quality software solutions. Strong understanding of software development lifecycle (SDLC), Agile methodologies, version control using Git, and object-oriented programming concepts, with strong analytical and problem-solving skills.

SKILLS

Programming Languages: Java, JavaScript, C

Software Development & Engineering: Object-Oriented Programming (OOP), SDLC, Agile Scrum, Problem Solving, Debugging, Software Troubleshooting

Automation & Testing: Selenium WebDriver, Playwright, TestNG, Cucumber, BDD, Automation Frameworks

Version Control & Tools: Git, GitHub, Maven, Jenkins, JIRA

API & Database: Postman, SOAP UI, REST API Testing, MySQL, SQL Query Writing

Quality Assurance: Functional Testing, Regression Testing, Integration Testing, System Testing, Defect Management

Core Skills: Cross-functional Collaboration, Analytical Thinking, Communication Skills, Attention to Detail

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

📅 01/2024 - Present 📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and maintained automation software scripts and reusable frameworks using Java, Selenium WebDriver, and TestNG to improve testing efficiency and software quality.
- Collaborated with cross-functional teams including developers and business analysts to understand requirements and validate software functionality.
- Troubleshot and debugged software defects, validating fixes and improving overall application reliability.
- Contributed to CI/CD processes using Jenkins, supporting continuous delivery and quality assurance.
- Participated in requirement analysis, framework improvements, and technical discussions to enhance software performance and maintainability.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed functional testing and manual testing for banking applications including Account Management, Fund Transfer, Loan Processing, and Transaction modules.
- Designed and executed test cases, test scenarios, and test plans based on business requirements and functional specifications.
- Conducted regression, integration, system, and UAT testing to ensure application stability and functionality.
- Executed SQL queries for backend data validation to verify data integrity and business logic.
- Logged, tracked, and managed defects using JIRA, ensuring timely bug resolution and retesting.
- Participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, reviews, and retrospectives.
- Collaborated with developers and business stakeholders to clarify requirements and resolve issues efficiently..

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Developed and maintained Playwright automation scripts using reusable components for critical regression scenarios.
- Executed manual, API, and automation testing for web applications to validate functionality and software reliability.
- Conducted REST API testing using Postman and backend validation using SQL queries to ensure data integrity and accurate system behavior.
- Participated in Agile Scrum ceremonies and collaborated with cross-functional teams to improve quality and delivery timelines.
- Prepared test execution reports, defect metrics, and QA documentation to support release readiness.
- Basic understanding of AI-assisted QA tools and automation concepts
- Collaborated closely with engineering teams to analyze requirements, identify defects, and improve software quality.
- Performed backend validation using SQL and API testing to ensure accurate business functionality.
- Participated in Agile Scrum development practices, sprint planning, and technical collaboration.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (Az-104)
