kellalakshmisree@gmail.com Bengaluru

SUMMARY

Manual QA Engineer / Functional Tester with 3+ years of experience in functional, regression, integration, and system testing for web-based applications in Agile Scrum environments. Experienced in creating and executing test cases, test scenarios, and test plans to ensure software quality and business requirement validation. Strong expertise in manual testing, defect tracking using JIRA, SQL query execution, backend data validation, and functional testing. Hands-on experience in Agile methodology, defect lifecycle management, requirement analysis, and cross-functional collaboration to ensure high-quality software releases. Strong communication, analytical, and problem-solving skills with attention to detail.

SKILLS

Testing Skills: Manual Testing, Functional Testing, Regression Testing, Integration Testing, System Testing, Smoke Testing, Sanity Testing, User Acceptance Testing (UAT)

QA Activities: Test Case Design, Test Scenario Creation, Test Execution, Defect Tracking, Bug Reporting, Requirement Validation, Test Documentation

Defect Management Tools: JIRA, Defect Lifecycle Management

Database Testing: SQL Query Writing, SQL Validation, MySQL, Backend Data Testing

Methodologies: Agile Scrum, SDLC, STLC

Tools & Technologies: JIRA, Git, GitHub, Excel

Automation Exposure: Selenium WebDriver, Playwright (Basic Automation Experience)

Core Skills: Communication Skills, Problem Solving, Analytical Thinking, Attention to Detail, Stakeholder Collaboration

WORK EXPERIENCE

E-Commerce Web Application Automation Testing

QA Engineer

📅 01/2024 - Present

📍 Bengaluru

- **Technologies:** Selenium WebDriver, Java, TestNG, Maven, Jenkins, Git, Page Object Model (POM), Maven, cucumber

Project Description & Responsibilities:

- Developed and executed test plans, test cases, and automated test scripts for critical business workflows including Login, Product Search, Cart, Checkout, and Payment modules.
- Performed manual and automated testing to validate software functionality, reliability, and quality standards.
- Executed functional, regression, smoke, and integration testing to ensure defect-free releases.
- Identified, documented, tracked, and validated defects using JIRA, collaborating closely with developers to ensure timely resolution.
- Conducted cross-browser compatibility testing to ensure consistent system functionality across Chrome, Firefox, and Edge.
- Integrated automated testing within Jenkins CI/CD pipelines to improve testing efficiency and release quality.
- Verified application functionality against business and system requirements.

Banking Application Functional & Manual Testing

Manual Test Engineer

📅 09/2022 - 12/2023 📍 Bengaluru

- **Technologies:** Jira, SQL, Agile Methodology, Excel, Test Case Management, Postman

Project Description & Responsibilities:

- Performed functional testing and manual testing for banking applications including Account Management, Fund Transfer, Loan Processing, and Transaction modules.
- Designed and executed test cases, test scenarios, and test plans based on business requirements and functional specifications.
- Conducted regression, integration, system, and UAT testing to ensure application stability and functionality.
- Executed SQL queries for backend data validation to verify data integrity and business logic.
- Logged, tracked, and managed defects using JIRA, ensuring timely bug resolution and retesting.
- Participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, reviews, and retrospectives.
- Collaborated with developers and business stakeholders to clarify requirements and resolve issues efficiently..

Professional Experience

Capgemini Technology Services — *Software Engineer QA*

Bangalore, India | Sep 2022 – Present

- Executed 5000+ manual test cases for web applications, identifying critical defects and reducing production issues.
- Designed and executed functional, regression, smoke, and exploratory test cases based business requirements and user stories.
- Performed UI automation testing using Playwright with JavaScript, automating key regression scenarios to improve test execution efficiency.
- Developed and maintained Playwright automation scripts for critical user workflows using reusable components.
- Conducted REST and SOAP API testing using Postman and SOAP UI, validating JSON/XML payloads, headers, parameters, and status codes.
- Performed backend data validation using SQL, ensuring data accuracy and business rule compliance
- Logged, tracked, and managed 1000+ defects using JIRA, handling the complete
- Actively participated in Agile Scrum ceremonies including sprint planning, daily stand ups, reviews, and retrospectives.
- Collaborated closely with developers, business analysts, and product owners to clarify requirements and resolve defects efficiently.
- Prepared test execution reports, defect metrics, and quality dashboards to communicate testing status and release readiness.
- Documented and maintained reusable test cases and reports, increasing QA onboarding speed and regression suite reusability

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

CERTIFICATIONS

-
- Selenium with Java – Automation Testing (Udemy, 2024)
 - REST API Testing with Postman (Udemy, 2024)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Microsoft Certified: Azure Administrator Associate (AZ-104)
